Visa Authorization Code Requirements

U.S and Canadian passport holders will need to apply for a travel authorization number from a licensed tour operator. This will require submitting the following information:

- **Passport Scan:** A colour scan of your photo page from your passport (must be in colour).
- **Passport Photo:** An individual colour passport photo scanned.
- **Father's Details:** Your father's name and job title in one sentence, on a separate document is required to satisfy this requirement.

- **Travel list:** This list should include the countries you have visited, including the year of travel. If you don't have a record of all destinations, a list covering the past 10-15 years will be acceptable.

- **Resume:** This must be a document that lists the applicants' education and employment history – similar to what you would prepare for a job application. This should include short paragraphs explaining your previous job responsibilities, but may also include hobbies/interests, and education. If you are or have been unemployed please simply include a short explanation of what period this applies to and why. Please note that this document may be rejected and cause delays to your application if it is shorter than 2-3 pages.
